Summary

I am a software engineer with one and a half year of hands on experience in an agile startup environment. I manoeuvre into new technologies and situations very easily and love to do so. Communication is one of my strong points, making me a natural teamplayer. I am constantly looking to learn and improve.

Experience

VMC, Amsterdam — *Software Engineer*

FEB 2018 - AUG 2019

As founding member, I helped the company grow from idea to product. From prototyping blockchains to building user-friendly mobile applications.
